

# TEXAS REHABILITATION HOSPITAL

## BRAIN INJURY SPECIALTY PROGRAM

Texas Rehabilitation Hospital of Fort Worth has a CARF Certified Brain Injury Program!

Our comprehensive Brain Injury Program encompasses all diagnoses under the acquired brain injury umbrella, including:

- Traumatic Brain Injury
- Encephalopathy/encephalitis
- Brain tumor
- Hypoxic/anoxic brain injury
- Hydrocephalus

Program Features:

- Designated Brain Injury Unit
- Private, low stimulation Gym
- Certified Brain Injury Specialists (CBIS) in Nursing and Therapy
- In-house Certified Brain Injury Specialist Trainer (CBIST)
- “Meet and Greets” to improve patient/family education and awareness and to facilitate community discharges
- Community re-integration outings
- Animal assisted therapy
- Group and individualized therapeutic recreational activities tailored toward patient interests
- “Busy Boxes” for continued cognitive tasks outside of therapy

**Texas Rehabilitation Hospital**  
of Fort Worth
